HEADFORMS FOR TESTING HELMETS

We supply a range of headforms – in accordance with EN960 (ISO/DIS 6290) – in a variety of materials.

These include half-heads, three-quarter heads and full headforms.

Applications include tests for marking up helmets (reference headforms) and for the tests of shock absorption, penetration, peripheral vision, retention, electrical insulation, etc.

Please contact us for your specific requirements.

Delivery: Approximately 4 weeks from receipt of order.

Effective: January 2008
